

CERARECOVERY™ Knee

POWERED BY
SEMICERA®
TECHNOLOGY

RECOVERY
at the speed of light

*Ideal for soft tissue knee injuries
and surgical recovery.*

The **Gladiator CeraRecovery™ Knee Device** is a therapeutic device which has been proven beneficial for healing soft tissue injuries, surgical recovery and rehabilitation.

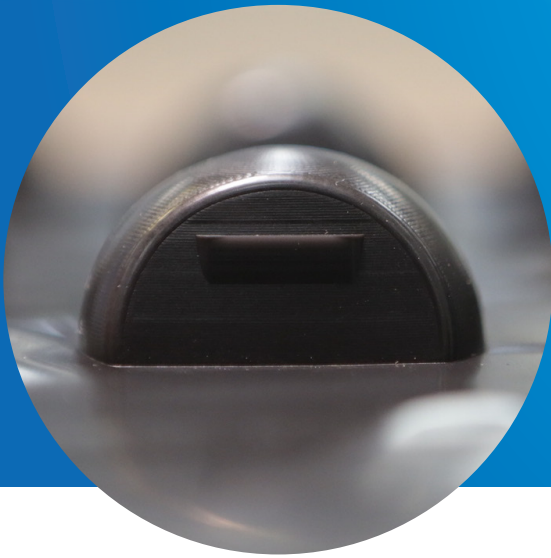

Featuring patented **SemiCera™ Technology**, the device uses only the patient's ambient body heat to passively activate the embedded far infrared ceramics. The subsequent emitted photons create intracellular vibration that stimulates the body's healing process.

*Published Peer
Reviewed Technology*

Active Healing at the Cellular Level

Infrared light from the ceramics penetrates the body.

- ✓ *Increased blood flow and overall circulation*, bringing vital nutrients and eliminating waste
- ✓ *Reduces inflammation*, allowing the healing process to progress

Benefits for Knee Recovery

-  *Assists in healing* minor tears of soft tissue and cartilage, potentially eliminating the need for surgery
-  *Reduces need for pain medication or injections*
-  *Reduces inflammatory toxins*
-  *Increases blood flow to tissue* for optimal perfusion prior and after surgery
-  *Allows for more productive physical rehabilitation due to less inflammation*

Patented Non-Powered, Non-Thermal SemiCera™ Ceramics

-  Allows the device to be worn all day while at rest or engaging in daily living activities
-  Enables long treatment times for faster healing without risk of tissue damage

Velcro Fastening System

-  Facilitates quick intuitive device application
-  Offers flexibility to fit most patients

Specifications

Model #:
1250

Size:
13.6" x 8.8" x 1.5"

Materials:
Medical Grade Textiles
Rare Earth Minerals
Silicone Rubber (Latex Free)
