RECOVERY *at the speed of light*

The *Gladiator MDTM Hip/Sacrum Device* has been proven beneficial for reducing pain and inflammation, increasing circulation, and accelerating cellular recovery.

Featuring patented *SemiCera[®] technology*, the device uses the patients ambient body heat to passively activate the embedded far infrared ceramics. The subsequent emitted photons create intracellular vibration that stimulates the body's natural healing processes.

Ideal for the treatment of pain and inflammation associated with Lower Back and Hip, Post Surgical Recovery, and Sciatica.
