

GLADIATOR MD

IRX Pod

POWERED BY
SEMICERA
TECHNOLOGY

RECOVERY *at the speed of light*

The *Gladiator MD™ IRX Bed*, consisting of a mattress and cover with emitting ceramic technology, **turns your rest into recovery** by reducing pain and inflammation, increasing circulation, and accelerating cellular recovery.

Featuring patented **SemiCera® technology**, the device uses the patient's ambient body heat to passively activate the embedded far infrared ceramics. The subsequent emitted photons create intracellular vibration that stimulates the body's natural healing processes.

Ideal for full body therapy for wellness and recovery.
